

LONG TERM CARPARK

A sixty space carpark has been developed adjoining the Royal Queensland Aero Club.

The carpark is for the convenience of fly-away airport users whose absence is longer than the twelve hour maximum for existing car parks.

The carpark will operate on an honour system. Users are to register with the Corporation within 72 hours of arrival. A flat rate of \$2 / day will apply.

Vehicles larger than motor cars may be accepted by prior arrangement. However, Archerfield Airport Corporation (AAC) reserves the right to impose access restrictions, or to alter the daily rate for larger vehicles.

AAC also reserves the right to prioritise access if demand exceeds supply.

The carpark is sealed and floodlit. However intending users of the carpark should be aware that it is not a secure car park. Users do so at their own risk.
