Mr Duncan Bird
Project manager
Archerfield Airport Corporation
PO Box 747
Archerfield QLD 4108

Dear Mr Bird

Archerfield Airport - Light Aircraft Option

I refer to your e-mail request of 15 December 2009 seeking confirmation that Archerfield Airport Corporation (AAC) does not receive the 'Light Aircraft Option' (LAO) discount from Airservices Australia (Airservices) and whether or not operators at Archerfield will be eligible for the LAO from 1 January 2010.

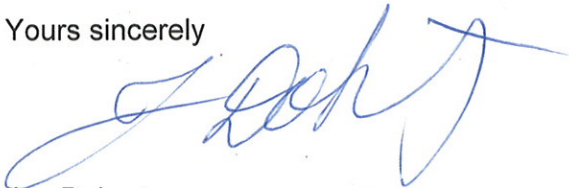

As of 1 January 2010 Airservices no longer has any financial arrangement in place with Archerfield Airport Corporation that relates to fees for Terminal Navigation services at Archerfield Airport. The previous arrangement between Airservices and AAC was usage based and did not incorporate any of the LAO provisions.

As was stated in the letter sent to Archerfield operators in December 2009, Airservices has stopped charging AAC on a usage basis and is now applying that same usage basis to charge operators directly for the service at the same price that we were charging AAC.

The next round of LAO offers will be calculated in April/May 2010 following cost benefit analysis and offers will be sent out in June 2010. Offers will be sent to operators who would receive some benefit under the LAO.

If you wish to discuss these matters further, please contact me on (02) 6268 5101 or by email at joseph.doherty@airservicesaustralia.com

Yours sincerely

Joe Doherty
Senior Adviser Airport Relations

February 2010

Cc: Gavin Bird, Managing Director, Archerfield Airport Corporation
